RE: Request for Time Extension, Pine Canyon Final Reclamation Plan, Kennecott Corporation, M/045/004, Tooele County, Utah

On June 1, 1989, Bob Bayer of JBR Consultants called the Division to request a 30-day extension for submission of Kennecott's final Pine Canyon Reclamation Plan. The previous deadline was June 1, 1989. I indicated that an additional 30 days should not cause significant problems and verbally approved the 30-day extension until July 1, 1989.

Mr. Bayer indicated that Kennecott has hired Mr. Michael Gibson as a new director of environmental affairs. He has replaced Ted Himebaugh. His phone number is 569-6555. Bob also indicated that the reseedling that had been performed in Pine Canyon this spring, is showing good signs of germination. He encouraged the Division to contact Mr. Gibson for an onsite inspection of the recent revegetation success.
